- [noorullahzamindar9@gmail.com](mailto:noorullahzamindar9@gmail.com)
- LinkedIn: <https://www.linkedin.com/in/noorullah-zamindar-4975a328a/>
- Portfolio: <https://noorullahzamindar-007.github.io/Portfolio/>

Highly skilled AI Engineer and Data Scientist with over **5 years of experience in machine learning, automation systems, and data analytics**. Skilled in Python, Pandas, NumPy, Matplotlib, Keras, Freelancing TensorFlow, data engineering, and AI-driven automation workflows. Holds multiple certifications in AI, data science, and Python from renowned organizations. Experienced in building intelligent systems including AI agents, predictive models, and automation pipelines. Passionate about developing scalable AI solutions that improve decision-making, operational efficiency, and digital transformation.

## Education

- **Bachelors in Computer Science** (Software Engineering)  
Rana University, Afghanistan
- **Bachelors in Business Administration (Progress)**  
Alagappa University (India) in Winner of (ICCR)
- **Diploma in English Language (DEL)**  
Storai Institute, Afghanistan
- **High School**  
Abdul Qayum Wardak High School (AQWHS), Afghanistan

## Certifications

- Certificate in Research – Cambridge University
- **Agentic AI Certification** – UNDP Turkey
- **Cybersecurity Certification** – UNDP ICPSD
- CCNA Certification – Top in Town
- World History Certification – Cambridge University
- Google Analytics Certification – Google
- Introduction to Cybersecurity – Cisco
- SQL Certification – Udemy
- AI and Data Science Certificate – UNDP & HBC Company, Afghanistan
- Data Analysis, Machine Learning, and Data Science Certificate – UNDP, Turkey
- Capacity Building (Freelancing)- UNDP & Gloria
- Python Certificate – Rana University
- Python for Data Science – Udemy
- Data Analysis Certificate – HP

# Experience

2026-FEB – PRESENT

## Freelancing & AI Trainer (Part-Time) - Islamic Relief Afghanistan

- Conduct training sessions on freelancing platforms and remote work strategies including Fiverr, LinkedIn, and Upwork.
- Teach practical applications of Artificial Intelligence in freelancing, including workflow automation, AI-assisted content creation, and productivity tools.
- Guide trainees on building AI-powered digital services, automation systems, and online portfolios.
- Mentor students and professionals on using AI tools for business automation and client project delivery.
- Provide training on automation tools such as Zapier, Make, n8n, and API integrations.

2025-JUL – SEP-2026

## AI / ML Trainer – UNDP

- Delivered AI/ML training sessions and mentoring for capacity building in under-resourced communities.
- Designed and implemented backend systems and tools using Python, SQL, and automation frameworks to support learning platforms and data workflows.
- Built and fine-tuned predictive models to demonstrate real-world AI applications, including time series forecasting and classification problems.
- Developed real-time data analytics pipelines and dashboards for educational impact tracking and insights.
- Collaborated with multidisciplinary teams to streamline training materials, datasets, and deployment workflows.
- Maintained high data integrity standards and ensured reproducibility of experiments through version control and documentation.

2021 – 2025-FEB

## System Manager - AMHTC

- Designed and managed backend systems for data processing and internal tools using Python and SQL.
- Developed and optimized forecasting models using data-driven techniques to support strategic planning.
- Led the implementation of data analytics pipelines for real-time business intelligence and reporting.
- Collaborated with cross-functional teams to streamline system inputs/outputs and enhance workflow automation.

- Integrated data collection systems with dashboards to improve visibility and operational performance.
- Ensured data integrity, system scalability, and security protocols in multi-departmental environments.

2023 – 2024-APR

### **Visiting Lecturer and Trainer- (Ghazi Amanullah Khan University)**

- Delivered lectures and conducted practical training in Artificial Intelligence, Python Programming, Information Technology, and Web Development.
- Designed and facilitated hands-on learning experiences for undergraduate students and trainees.
- Recognized by academic leadership for simplifying complex topics and making a strong impact on student learning.
- Commended for professionalism, dedication, and a passion for education and technology.

FEB 2020 – MAR 2021

### **Field Engineer (Technical Assistant) io Global Services Pvt. Ltd. – Kabul, Afghanistan**

- Provided technical assistance and on-site support for hardware and networking systems.
- Assisted in field-level hardware installation, maintenance, and diagnostics.
- Supported the operations team in resolving system issues and improving infrastructure efficiency.
- Demonstrated strong troubleshooting skills and contributed to team success in multiple project deployments.

2020-PRESENT

### **Freelance/Remote Data Analyst & Machine Learning Engineer**

- Conducted data analysis and visualization projects using Python, Pandas, and Matplotlib.
- Developed machine learning models for prediction, classification, and clustering.
- Provided consultation on AI and ML solutions for international clients.
- Built data dashboards using Power BI and Tableau for client reports.
- Assisted in data cleaning, feature engineering, and model optimization.
- Successfully completed multiple projects sourced via LinkedIn, including:
  - Remote collaboration with WeLearn (Dubai) on AI-driven educational solutions. Find from italki
  - Delivered web application projects to clients in the USA focusing on data-driven insights and automation, Find from fiverr and LinkedIn.
  - POS Data bases in SQLite, Pyqt6 USA Client have work more than 40 days on the project.
- Done the Fiverr Projects as teacher more the 5 projects
- Maintained a 4.9/5.0 rating on italki as a language instructor, recognized as one of the top-rated teachers on the platform and done more than 85 classes projects.

## Projects & Research

- **Facial Emotion Recognition System** – Developed using OpenCV, TensorFlow Keras, and Scikit-learn.
- **Cybersecurity Threat Detection with AI** – Used machine learning to detect and prevent cyber threats.
- **Web app of the car reservation online in (USA)** – Developed using Flask for backend and Flutter for frontend.
- **AI Email Auto-Responder Agent** – Developed an AI-powered system that automatically reads incoming emails and generates intelligent replies using Gmail API and AI models.
- **WhatsApp / Telegram Customer Support Bot** – Built an automated chatbot that handles customer inquiries and provides instant responses using AI-based intent detection.
- **AI Invoice & Document Extractor** – Developed a system that extracts key information from invoices and documents using OCR and machine learning techniques.
- **Website Lead Capture** → CRM Automation – Built an automated workflow that captures website leads and sends them directly to CRM systems for customer management.
- **AI Social Media Auto-Post Generator** – Developed a tool that automatically generates and schedules social media posts using AI text generation and automation workflows.
- **AI Research Agent** – Built an AI agent that collects information from online sources, summarizes findings, and automatically emails structured reports.
- **AI-Enhanced POS Desktop System** – Developed a POS desktop application with integrated AI analytics to generate automated sales insights and predictive business reports.

## Technical Skills

\*Languages: Python (Pandas, NumPy, SciPy), MySQL, Scikit learn, TensorFlow, Keras

\*Automation & AI Tools: Zapier, Make, n8n, REST APIs, Webhooks, JSON Automation Pipelines

\*Frameworks: Flask

\*Freelancing: Italki, Fiverr, Toptal, Linkdin, etc.

\*Databases: MySQL, SQL Server

\*Tools & Platforms: Git, Power BI, VS Code, Anaconda, Google Collab

\*Frontend: HTML5, CSS3, Bootstrap, tailwind CSS

\*Concepts: OOP, Agile/Scrum, Data analytics

\*Abilities: Excellent Communication & Research, Writing Ability to Work Under Pressure & Meet Deadlines, Excellent time management skills

## Book Publication

### Human and Machine

Author – Noorullah Zamindar-Abdul Basir Mohmmad

- A research-oriented book exploring the relationship between Artificial Intelligence and human capabilities.
- Discusses the evolution of AI, human–machine collaboration, ethical considerations, and future technological developments.
- Focuses on AI applications in society, education, healthcare, and business transformation.

## Languages

- Pashto (Native)
- Dari (Fluent)
- English (Fluent)
- Urdu (Fluent)

## Professional Memberships & Contributions

- Owner of two cricket grounds for community engagement and sports development
- Active member of AI & Data Science Research Groups
- Contributor to Open-Source Data Science Projects
- Unpublished research on machine learning and AI applications
- Written the Book By the name of the Human and Machine

## Activities

Literature • Environmental conservation • Art • Cricket • Posting on LinkedIn • Travel • Coding
